SIAM Student Chapter of Magdeburg

Friday, 1 July 2022 14:20 (20 minutes)

The SIAM Student Chapter of Magdeburg is an association of students at the Otto-von-Guericke University and the Max Planck Institute in Magdeburg. Being part of the SIAM Chapter means having opportunities to develop networks with students from different faculties, departments, and research fields. This cooperation allows us to share ideas and research with people having similar interests, organize events together, learn about career options, and develop leadership skills. We will provide an introduction to the purpose and activities of the SIAM Chapter.

Primary authors: KAPADIA, Harshit (Max Planck Institute for Dynamics of Complex Technical Systems); FILANOVA, Yevgeniya (Max Planck Institute for Dynamics of Complex Technical Systems)

Presenters: KAPADIA, Harshit (Max Planck Institute for Dynamics of Complex Technical Systems); FILANOVA, Yevgeniya (Max Planck Institute for Dynamics of Complex Technical Systems)

Session Classification: Scientific Program Friday
